

A new angle on breast shields.

At Medela, research is at the root of everything we do. When we decided to design a new breast shield, we tested it from all angles. The result is PersonalFit Flex, a breast shield designed to adapt to mom's unique breast shape. Now, mom can easily adjust her breast shield to find the most comfortable pumping position for her.

Compatibility

Medela PersonalFit Flex Breast Shields are compatible with all Medela breast pumps.

Built for a better fit

Medela PersonalFit Flex™ Breast Shields have a research-based design that adapts to your breast shape for a **whole new pumping experience shaped around you**. Proven to remove more milk faster, PersonalFit Flex allows you to make the most of your pumping sessions and enjoy these moments with your baby.

Designed with you in mind

PersonalFit Flex facilitates a better breast fit and is clinically proven to give you a more efficient expression.

Removes **11.8% more milk per minute***

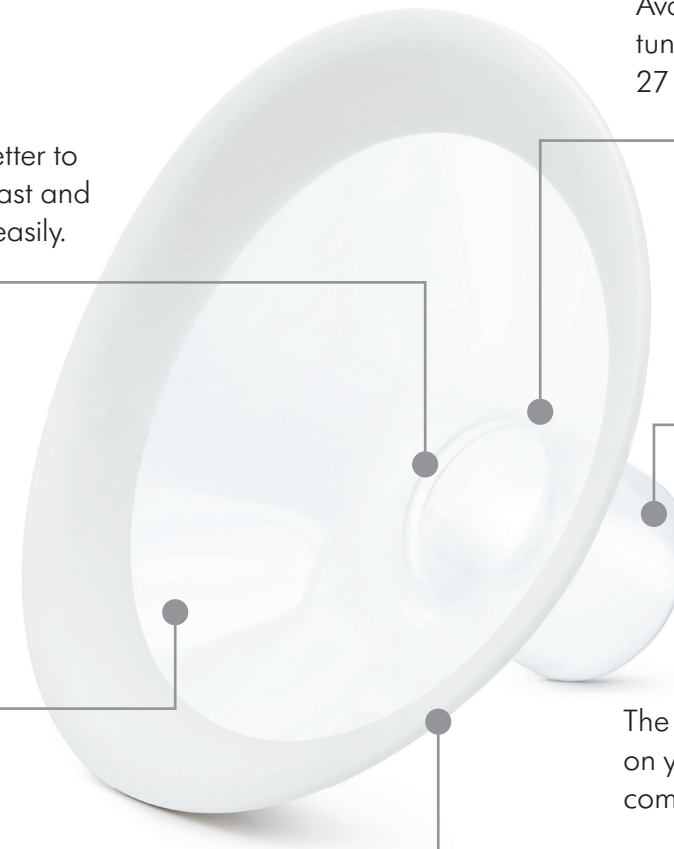

Available in **four** different tunnel sizes: 21 mm, 24 mm, 27 mm, and 30 mm.

105° angle adapts better to the shape of your breast and helps milk flow more easily.

Oval shape can be rotated 360° for comfortable, flexible positioning.

Effectively removes **more milk faster** and in less time.

The **soft rim** lies smoothly on your breast for a comfortable, natural feeling.

*Compared to the traditional 90° breast shield
