

Symphony PLUS® Breast Pumps + Sets (Kits)

Providing access to hospital-grade technology helps make returning to work and continuing to breastfeed seamless and easy for moms. Equipping your lactation space with Symphony PLUS is a great way to show that your company cares about and supports working moms who want to provide breast milk for their babies.

Why moms (and hospitals) love Symphony PLUS Breast Pumps:

Trolley sold separately.

- ✓ **Intelligent**
2-Phase Expression® technology, found only in Medela breast pumps, imitates the natural sucking behavior of babies.
- ✓ **Efficient**
Pumps more milk in less time while maintaining breast milk supply when not able to directly breastfeed.¹
- ✓ **Powerful**
Multi-user breast pump designed for 1000s of hours of operation that produces breast milk with higher energy content (as measured by cream content).¹
- ✓ **Safe**
Closed system breast pump features a protective membrane, which prevents breast milk overflow. Symphony is easy-to clean and user-friendly with only a single knob for adjusting vacuum and speed.
- ✓ **Discreet**
Whisper-quiet operation reduces the worry of disturbing others while pumping at work.

Symphony® Double Pumping (Set) Kit

Everything mom needs to start pumping:

* Set available in 6-pack case quantities

2 membrane caps, protective membranes, and tubing with adapters

2 PersonalFit Flex™ Breast Shields for flexibility and comfort

2 reusable 150 mL collection containers with lids

Symphony PLUS is by far the best pump on the market. It's fast, effective, and without any milk left behind. I would recommend this pump to all my friends.

How it works:

Symphony PLUS® Breast Pumps are designed to be used by multiple moms, which makes them a great option for the workplace. Individual pumping sets are used by each mom and include everything she needs to start pumping with Symphony PLUS. This eliminates the need to transport a personal-use breast pump to work and back each day—and gives moms one less thing to worry about.
